PROJECTS

My Portfolio. HTML , CSS , JavaScript

- Used HTML for crafting structured content with semantic tags ,facilitating clear comprehension
- for both users and search engines
- Used JavaScript and CSS for dynamic content like responsive menus , forms and engaging sliders
- Leveraged advanced event handling mechanism to orchestrate user interaction ([GitHub](#))

Resume Generator. HTML , CSS , JavaScript

- In this project I aimed to create a user friendly website capable of generating professional resume
- for professionals across various industries.
- Used HTML and CSS to give semantic structure to the project and used modern CSS techniques to give it an elegant user interface.
- Used JavaScript to add dynamic functionalities such as real time preview and form validation. ([GitHub](#))

Coffee Exploration Website. Capstone

- For my Capstone project I made a website dedicated to different types of coffee available in the world and users can subscribe to it for updates and exclusive content by integrating email services
